Yes. I believe we've provided them to others in the past.

Because we've given several rounds of comments, I'm not sure. Probably the most recent, which I believe were sent out to DEP on May 7th.

As I discussed with Christos before he left, I plan to send the draft siting documents and LTCP to the CAG as an FYI, rather than for comment.

If you want me to respond to Brad, I can. I have our most recent comments handy.

I presume that forwarding our comments to him is OK.

Subject: Comments on DEP CSO Tank Siting Recommendations

Hi Brian and Joel,

I just received an out of office bounce-back email from Christos which directed me to you. I was at the recent CAG meeting and was able to hear about the progress on the canal clean-up. At one point it was mentioned that there was public record of EPA comments to the first round of DEP tank siting recommendations that could be provided if one were to email the EPA. Could you please direct me to the best way to get a copy of this information?

Thanks for your help,

Brad Cooke
